

Patent Application: 10/668,336  
Docket No: P18033US2

20. (Original) The packet data system claimed in claim 18, wherein the one or more service options include service option 61.

21. (Original) The packet data system of claim 18, wherein the PDSN receives the indication in a RADIUS Access Accept message sent by the HAAA/PPS.

### Conclusion

Paragraph [0023] has been amended to correct a typo.

Paragraph [0017] and Claim 15 were both amended in order to remove the sentence "a prepaid terminal".

In the Examiner finds out that a prosecution of the present invention would be facilitated by telephone interview, the Examiner is invited to contact the undersigned, Alex Nicolaescu, at telephone number (514) 345- 7900 extension number 2596.

Respectfully Submitted,

Alex Nicolaescu
